EDUCATION

University of Chicago – Chicago, IL

September 2026 - June 2029

Candidate for Bachelor of Arts, Economics (Data Science specialization); Minor, Entrepreneurship & Innovation

University of North Carolina at Chapel Hill | Kenan-Flagler Business School – Chapel Hill, NC

August 2025 - May 2026

Completed first year toward Bachelor of Science, Business Administration; Bachelor of Science, Data Science | GPA: 4.0

- Honors Carolina: Top 10% of undergraduates; Assured Enrollment to Kenan-Flagler Business School

EXPERIENCE

Blue Oak Group LLC – Philadelphia, PA

May 2026 - Present

Private Equity Summer Analyst

- Evaluate self-funded LBO/SBA acquisition opportunities by modeling multi-tranche debt, DSCR constraints, and equity waterfalls to assess returns, leverage capacity, and downside protection.
- Build industry theses and automate broker-listing review through AI-enabled workflows that extract, deduplicate, and fit-score targets using market, diligence, and target-level financial analysis.

Cofounders Capital – Cary, NC

January 2026 - May 2026

Venture Capital Intern

- Evaluated 300+ seed-stage B2B companies across fintech, marketplaces, and infrastructure, assessing market size, unit economics, competitive positioning, and downside risks for investment review.

UNC Portfolio Management Team

September 2025 - May 2026

Technology Sector Analyst; 1 of 12 Students Selected from 170+ applicants

- Conducted TMT equity research for the Ewing-Schleeter Harris Fund (\$120K AUM, ~25% of portfolio), analyzing recurring revenue models, software transition dynamics, and margin expansion to develop buy/sell recommendations
- Built DCF models, WACC calculations, and public comparable analyses, stress-testing discount rates, growth assumptions, and exit multiples to triangulate price targets via football field valuation

Hitech Corporation – Gaithersburg, MD / Mumbai, India

July 2025 - September 2025

Marketing & Strategy Intern

- Contributed to U.S. market entry analysis for an automotive plastics acquisition, mapping supply chain tiers across 27 Tier-1 and aftermarket suppliers

DTV.ai – Boston, MA

May 2023 - February 2025

Co-founder of a B2B cost analytics firm

- Co-founded and operated a B2B cost-intelligence firm for retail and CPG clients; generated \$40K+ in paid revenue across 10+ engagements through outbound sales, client delivery, pricing, and contract negotiation.
- Led customer discovery, sourcing strategy, and unit-economics analyses that identified 12–15% modeled per-unit cost-reduction opportunities for clients.

PROJECTS & RESEARCH

Working Paper (Quantitative Finance) | Independent Research

March 2025 - May 2026

Title: American Option Pricing Under Time-Varying Rough Volatility | arXiv (arxiv.org/abs/2508.07151)

- Developed an American option pricing model integrating rough volatility dynamics and regime-switching engines
- Applied Random Fourier Features to accelerate signature-kernel evaluations, cutting computational cost while preserving accuracy

High-Frequency Trading Order Book | Independent Project

November 2025

Link to Repository: <https://github.com/roshanshah11/vertexladder>

- Developed an HFT order book in C++ processing 1.87M+ orders/sec, simulating the execution infrastructure used in institutional trading environments
- Optimized matching engine performance to minimize execution latency and slippage, applying queue-based matching engine design used in lit-exchange equity markets

SKILLS

Languages & Tools: Python, Swift, JavaScript, SQL, React, Next.js, FastAPI, Express.js, Git, ArduPilot

Hardware: PCB design, Wire diagramming, SolidWorks, Fusion 360, KiCad, Soldering
